PRODUCTION TIPS

- Make sure your ad is full color (CMYK), built to the correct size and that width and height orientation is correct.
- Please use art in your ads that is scanned at a resolution of 200 to 400 dpi at 100% of its original size. Using lower resolution artwork will cause it to reproduce badly. Please do not use artwork taken from a website, these are generally 72 dpi and will look very bad in print.

IMPORTANT

These file formats are NOT acceptable and cannot be submitted: PageMaker, Publisher, Powerpoint, Corel Draw, Microsoft Word, PC Quark Files.
